## LENS CHANGE MANUAL

RAPIDLY CHANGE YOUR LENSES WITH  
THIS VERY SIMPLE DIY MANUAL

EASY TO USE  
  
**DO IT YOURSELF**  
LENS CHANGE SYSTEM

### STEP 1.

To remove the lens, hold the central part of the frame in one hand, and grab the lens using the other hand.

### STEP 2.

Gently pull the lens downwards at the inner part closest to the nose pad.

### STEP 3.

To insert the new lens, position the lateral pegs in the corresponding holes in the frame.

### STEP 4.

After positioning the lens along the outer edge, push in the central part between lens and frame until it clicks into the frame.
